

What is the Tobacco Free Community Coalition doing in our community?

Partnering with the Charlottesville Free Clinic, promoting Quit Smoking Charlottesville, which offers free smoking cessation classes and counseling to anyone.

Promoting the 1-800-QuitNow telephone cessation support line to medical providers for referrals and for tobacco users.

Partnering with the Citizens against Youth Smoking Task Force to educate about youth smoking trends and increase local cigarette taxes.

...and more! The TFCC works collaboratively to reduce the burden of tobacco use in our region.
